A BIG WEEK FULL OF FIREWORKS

UNE GRANDE SEMAINE TRÈS PYROTECHNIQUE

The Big Week offers numerous activities in which thousands of people from San Sebastian play an active role. As every year, Donostia Kultura Festak has taken care of all the details of a programme which includes every single ingredient needed for a week of fun, with one outstanding event centre-stage this year: the 60th International Fireworks Competition.

Giants and Bigheads, culinary competitions, a range of sports, displays of local folklore, concerts... all enrich a programme featuring inclusive and egalitarian activities intended for all audiences of all ages, with fireworks the central theme this year. The San Sebastian International Fireworks Competition is in fact celebrating its 60th edition, having established itself as one of the most important contests in the world, attracting the leading pyrotechnic teams, eager to show off their full potential, and claim the coveted Golden Shell.

A Big Week would be unthinkable without the International Fireworks Competition. It would simply be a different kind of fiesta. Firework displays in fact predate the Big Week as we know it. The competition was founded in 1964, and proved a landmark event in the city. The first Golden Shell went to the pyrotechnic team Zaragozana, who this year will once again be taking part in a competition featuring pyrotechnic specialists who have claimed trophies during the past 60 editions, including Valenciana, winners of the last two contests.

These 60 editions have engraved countless images in our memories, such as the cascades between the Island and Urgull that brought Big Week to a close in the 1990s, fireworks launched from out on the bay, as well as the wide range of musical pyrotechnic shows that have provided the finale to the Big Week so far this century. 60 editions which will this year end with live music courtesy of Izaro, Janus Lester and The Joselontxos, a DJ and a laser show. A closing ceremony to celebrate a key anniversary of one of the city's most charismatic and popular activities not only during Big Week, but throughout the year.

Big Week 2025 will be a week full of atmosphere, activities for all, but above all, plenty of light, sound and gunpowder. As every year, we will be singing the traditional song "Artillero, dale fuego", to light the fuse of a week with fire and colour at its heart. You are all invited.

Gora Donostia!

La Grande Semaine regorge d'activités auxquelles participent de manière active des milliers d'habitants de la ville. Comme chaque année, Donostia Kultura Festak a soigné tous les détails d'un programme qui inclut tous les ingrédients nécessaires à une semaine pleine de divertissements, avec cette année un protagoniste d'exception : le 60^e Concours international de Feux d'artifice.

Géants et grosses têtes, concours gastronomiques, sports en tous genres, exhibitions de folklore local, concerts... viennent enrichir un programme dont les activités inclusives et égalitaires sont destinées à tous les publics et à tous les âges, avec les feux d'artifice comme axe central. Car cette année, le Concours international de Feux d'artifice de San Sebastián célèbre sa 60^e édition, désormais consolidé comme l'un des concours les plus importants du monde et attirant les meilleurs compagnies pyrotechniques, impatientes de montrer tout leur potentiel pour obtenir le trophée si convoité : la Coquille d'Or.

Nul ne saurait imaginer une Grande Semaine sans Concours international de Feux d'artifice. Ce serait tout simplement un autre type de fête. Le tir de feux d'artifice est d'ailleurs historiquement antérieur à la création de la Grande Semaine telle que nous la connaissons. Le concours, qui naquit en 1964, fut un grand événement dans la ville. La première Coquille d'Or fut décernée à la compagnie Pirotecnia Zaragozana, qui sera à nouveau présente cette année aux côtés des autres compagnies récompensées durant ces 60 éditions, et notamment la Valenciana, gagnante des deux derniers concours.

Ces 60 éditions nous ont laissé de nombreuses images mémorables, comme les cascades entre l'île Santa Clara et le mont Urgull, qui clôturaient la Grande Semaine des années 1990, les feux tirés depuis l'eau ou les spectacles pyromusicaux les plus variés qui ont mis le point final aux fêtes durant ce quart de siècle. 60 éditions qui cette année se termineront en apothéose avec la musique en direct d'Izaro, Janus Lester et The Joselontxos, un dj et un spectacle laser, pour célébrer l'éphéméride d'une des activités les plus charismatiques et les plus appréciées de la ville, non seulement de la Grande Semaine mais de toute l'année.

La Grande Semaine de 2025 va être une semaine pleine d'ambiance, avec des activités pour tous et pour toutes, et surtout, avec beaucoup de lumière, de son et de poudre. Comme chaque année, nous chanterons le traditionnel « Artillero, dale fuego » pour donner le coup d'envoi à une semaine où le feu et la pyrotechnie seront les authentiques vedettes. Vous êtes toutes et tous invité(e)s.

Gora Donostia! Vive San Sebastián !

Eneko Goia Laso
